

New Voyager Volunteer Background System

Parents and Guardians are able to access a link (shown below) to log in to a site where a background search can be ordered. This new process has been put into place to protect privacy and minimize the possibility of cyber or other fraud.

Volunteers are able to choose if they want to order a criminal background check (which is needed for any volunteering at Voyager in which there is contact with children) and a driving background search (only needed if they intend to drive with children in a personal automobile). The costs for these will be incurred by the parent or guardian requesting the search. This background search will be available for download and for personal use. **Please allow 5 business days for the process to clear.** The price for these is below:

Criminal background search..... \$15.00

NC Driving Record search..... \$12.00

For parents or guardians of students that are on the free/reduced lunch program, the background search cost will be incurred by Voyager Academy. These parents would need to fill out a paper background form which can be obtained at your schools' front office. It would then need to be turned back in to the school front desk for processing. This paper copy will be faxed to the background company and then shred.

Parent volunteers request backgrounds at: voyager.myrecordcheck.com and in comments put VOYAGER ACADEMY
